

SHREYA DUBEY

Software Engineer Intern | Full Stack Developer

dubeyshreya2507@gmail.com | +91 9970851009 | [linkedin.com/in/shreya-dubey](https://www.linkedin.com/in/shreya-dubey) | github.com/shreyad2806

Education

Vellore Institute of Technology (VIT)
B.Tech in Computer Science and Engineering

Sep 2023 – May 2027
CGPA: 8.25

Technical Skills

Languages	Java, Python, C++, SQL, JavaScript, TypeScript
Frontend	React, HTML, CSS
Backend	Spring Boot, Spring Data JPA, Hibernate, JDBC, FastAPI, REST APIs, Microservices
Databases	PostgreSQL, MySQL, Redis, Pinecone
Cloud & Tools	AWS (Fundamentals), Docker, Git, GitHub, Maven, Linux, Postman, Swagger/OpenAPI, CI/CD
Testing & CS	JUnit 5, Mockito, Unit Testing, Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design
AI	Generative AI, LLMs, RAG, Semantic Search, LangChain, LangGraph, Hugging Face, Prompt Engineering

Projects

Falcon Airlines – Enterprise Airline Reservation System github.com/shreyad2806/Falcon_Airlines

Java 21 • Spring Boot • Spring Security • Spring Data JPA • Hibernate • JDBC • PostgreSQL • Redis • Docker • JWT

- Engineered an enterprise airline reservation backend exposing **40+ REST APIs** for authentication, booking, ticketing, payments, and passenger management using Java and Spring Boot.
- Architected a scalable backend with **15+ normalized PostgreSQL tables** and **20+ Flyway migrations**, implementing JWT authentication, Redis caching, and layered architecture following SOLID principles.
- Automated deployment with a **4-service Docker environment** and GitHub Actions CI/CD, integrated a Python AI microservice, and achieved **80%+ unit test coverage** with JUnit and Mockito.

ArchitectIQ – AI Backend Architecture Analysis Platform

github.com/shreyad2806/Architectiq

Python • FastAPI • PostgreSQL • React • TypeScript • REST APIs

- Built an AI-powered backend architecture analysis platform evaluating **100+ backend components** using FastAPI, asynchronous processing, and modular REST APIs.
- Developed reusable services with Pydantic validation and standardized JSON responses, improving maintainability through configurable workflows and modular architecture.

ComplytAI – AI Financial Compliance Intelligence Platform

github.com/shreyad2806/ComplytAI

Python • FastAPI • LangGraph • PostgreSQL • Pinecone • RAG

- Integrated LangGraph orchestration, Pinecone vector search, and FastAPI to automate financial document analysis across **thousands of document chunks**.
- Orchestrated asynchronous workflows for semantic retrieval, evidence-grounded reasoning, and scalable REST APIs, supporting modular AI pipelines for production-ready compliance reporting.

Experience

AI Research Intern – LawGPT

May 2026 – Jun 2026

AI Engineering / CRM Development

- Developed a full-stack AI-powered legal marketing CRM covering **lead discovery, qualification, trends, content, strategy, and analytics**.
- Built AI workflows for **lead qualification, content generation, and marketing insights**, with Supabase-backed CRM data and content management for AI-generated LinkedIn posts and infographics.

Software Development Intern – Bluestock

Nov 2025 – Dec 2025

Backend Development

- Optimized **FastAPI REST APIs and SQL queries** in an Agile environment, reducing backend response latency by **25%**.

Honors & Achievements

Runner-up – Smart India Hackathon 2025 | **Finalist – ET GenAI Hackathon 2025**

NandaHack – HCLTech × MIT Media Lab: Contributed to an open-source Agentic AI platform involving agents, memory, and trust workflows.

150+ DSA Problems solved across LeetCode and Codeforces.

Leadership

President – TechnoMech Club – VIT

- Led 10+ technical workshops, collaborating with student teams to deliver software engineering and AI learning sessions.

Certifications

- Generative AI with Large Language Models — Coursera
- Career Essentials in Generative AI — Microsoft & LinkedIn Learning
